

FURNITURE, FINISHES & EQUIPMENT

MEMBER PUBLICATION

Vol. 1, 2024

We're here for you.

One of our most popular value-added offerings, the HPS Furniture, Finishes & Equipment program makes it easy to find everything you need to affordably furnish, equip and accessorize your facility—from lobbies and office spaces to waiting rooms and resident rooms to kitchens and cafeterias.

Not only will our knowledgeable customer service representatives work with you through each step of the process, from inquiry to installation, they can also connect you to designers who specialize in crafting and engineering your interior and exterior spaces.

With more than 800 manufacturers to draw from, which includes hundreds of kitchen equipment and furniture groups, we offer the flexibility, support and peace of mind you've been looking for.

This publication provides a mere sampling of products to spark ideas of what you may want for the months ahead. It's easy to get the ball rolling—call 800-632-4572 or email ffe@hpsgpo.com.

FURNITURE, FINISHES & EQUIPMENT POTENTIAL ORDERING CONCERNS

When you receive a quote from our Furniture, Finishes & Equipment group, it is based on the manufacturer's/supplier's current published price list at the time.

Freight delays, periodic shortages of raw materials and parts, and lack of sufficient personnel due to the ongoing supply chain disruption may result in changes to your order in terms of product availability and/or product and shipping costs.

Any such changes are entirely out of HPS' control, and we cannot be held responsible for any delays or cost increases associated with your order.

While this is not necessarily something to be expected, what we have seen recently with a number of orders is changes to product pricing, delivery times and shipping charges after an order has already been accepted. We will communicate with you as soon as we are notified of any changes to your order, should any occur.

Prior to the order shipping from the factory, you should be notified of any price adjustment to your order. You will have the opportunity at that time to accept the price adjustment or cancel your order.

We know this entire situation is frustrating and makes it far more difficult for you to accomplish your goals and meet your organization's needs. We will do everything in our power to help mitigate these disruptions and keep you as informed as possible.

Condiment Carts

Relieves congestion in high-volume serving operations. Cart has a dual height model that serves young students, teens and adults. Pump system achieves up to 98% product evacuation.

Serving Lines

Mobile and stationary serving counters with a large selection of food and slicer shields—fixed or adjustable, and full front or tiered.

- Space-saving vertical merchandising display cases
- Hot and frost, and hot and cold combination serving counters
- Heated, cold or ice pan serving counters

Stand Alone Dispensers

Clear containers beautifully display food, while the patented portion control wheels allows guests to dispense 1 oz servings per turn.

Vacuum Packing Machines

Features vacuum control sensor with all the program values on a 3.9" LCD color display screen. Capacity to store 25 different vacuum programs. Staged vacuum program for soft and porous products. System for detecting the evaporation point, ensuring the maximum possible vacuum. Progressive decompression to prevent the piercing of the bag by sharp-edged products.

Food Cutters

Hobart's food cutters come in two sizes that feature stainless steel bowls and hefty motors that rough-cut, shred and chop. The double cutlery-grade stainless steel knives reduce food products to a uniform size for salads, spreads, bread crumbs, meats—anything your recipe calls for.

Hamilton Beach

Immersion Blenders

The BigRig™ immersion blenders offer portability and versatility to create large batches of your favorite recipes without sacrificing time or quality, all while creating fewer containers and pots to wash.

- Wall mount hanger
- 2-position handle with ergonomic grip and 12" stainless steel shaft
- Variable speed ThumbDrive™
- Speed range: 3,000–15,000 rpm
- 800 watts, 120 v/60/1-ph
- 2 year parts and labor warranty

Culinary Blenders

Easy-to-use sealed paddle switches, variable speed dial and pulse function allow for blending consistency over a wide range of applications, from pureeing to emulsifying.

- Powerful 2.4 peak hp motor
- 48oz/1.4 l break-resistant BPA-free co-polyester jar
- High-strength stainless steel blades
- 4 oz/118 ml dosing cup
- Available in 120 v

in sink erator

Instant Warm Handwashing System

Combines a hot water tank and touchless faucet that can be placed in numerous locations. Staff won't waste water or time waiting for warm water. Faucet automatically shuts off when hands are moved away from the sensor. Costs less than 1 cent per wash.

Disposers

Increase kitchen efficiency and profitability by reducing staff trips to the dumpster and waste-hauling costs. By adding the optional AquaSaver® control system, you can cut water usage by up to 70%.

Moss Wall

Pre-built Living Green Wall

Faux Wall

Green Walls

GrowUp offers three options: moss walls, pre-built living walls and custom faux walls.

Moss walls are handmade to your specific requirements, look and feel completely natural, and require no maintenance. With no additional lighting required, moss walls can be placed anywhere indoors.

Pre-built living green walls are a simple solution for adding greenery into any environment. They come with a built in growlight, and a 20-gallon water tank means that no water connection is required. The system holds 70 4" plants, and the look can easily be changed by switching out plants.

Custom faux walls provide the look of natural living walls without the maintenance. These artificial walls provide flexibility for placement anywhere indoors or outdoors. GrowUp's artificial green includes UV and non-fade technology.

Privacy Booths

The Recharge collection offers adaptable components that provide diverse applications. Shown below café-like work seating to promote collaboration, and to the right are privacy seats to focus away from the desk.

Allsteel

Allsteel

Floor & Desk Screen Dividers

The Focus floor screen provides textile privacy. Its feather-light design makes it easy to move and to adapt to your needs. Choose the size and shape that works best for your focus.

The Focus desk divider complements the Focus floor screen to establish a calming cocoon, limiting distraction and promoting concentration for a workspace at home or in an open-plan office. Square or rounded corner options available.

Bring the Outside in With Biophilic Design

Mimic the world outside your window with hues that draw their inspiration from nature. Whether it's a botanical shade of green or a sky-like shade of blue, these colors and biophilic designs bring the outdoors to you.

A Layered Look

Biophilic design reinforces the existing bond between humans and nature. With an emphasis on order and harmony, biophilia is a great way to create a beautiful, stress-free living environment that also encourages sustainability. To get the look, start with color. Choose outdoorsy shades like Pewter Green for walls and a calming neutral for trim. These simple colors set the tone for plants and natural lighting to complete the look.

A Burst of Color

The key to successfully incorporating color into biophilic design is finding hues that evoke the soft, reflective aspects of nature. Bathing a room in Misty creates a soft, neutral background for a variety of natural design elements. Just like the landscape outside your window, your interior should feel airy with splashes of color to refresh your senses throughout the day.

FFE Value Promise

Unlike other companies, when it comes to helping you with your furniture, finishes and equipment needs, HPS goes above and beyond mere low prices. As an HPS Member, we're with you every step of the process, from initial inquiry to installation to troubleshooting. We offer the flexibility, support and peace of mind you need.

Here's how we can help:

1. PRODUCT QUOTES

Just let us know what you need, and we'll get you highly competitive quotes from the most well-respected manufacturers around.

2. VOLUME DISCOUNTS

You don't even need to ask. If we see you are probably eligible for a volume discount, we'll initiate talks with the manufacturer for you.

3. WORRY-FREE ORDERS

You can rest easy knowing that when we place your order with the manufacturer, we serve as point person for any questions or concerns you or they may have.

4. INSTALLATION

In some cases, we're able to help coordinate installation—we know what to look for and what to ask potential installers.

5. FORMAL BIDS

When your project requires bids, formal or otherwise, we're able to respond.

6. EQUIPMENT SPECS AND DRAWINGS

If you need to know more about the products you want, we have the resources to help you receive technical specs and drawings from manufacturers, when they are available.

7. PAST PURCHASES

Need to know what you or your organization purchased five years ago? Seven years ago? Our records are always up to date.

8. GENERAL QUESTIONS

When you have any questions along the way, start with us. If we can't answer them, we know where to direct you.

Remember, the scope of our furniture, finishes and equipment offerings is as broad as anything you need—all it takes is a simple call or email from you to get started.
